ERFWeb Employee Filing Guide

Oct 23, 2026 · @Jay Bryan

Before you start

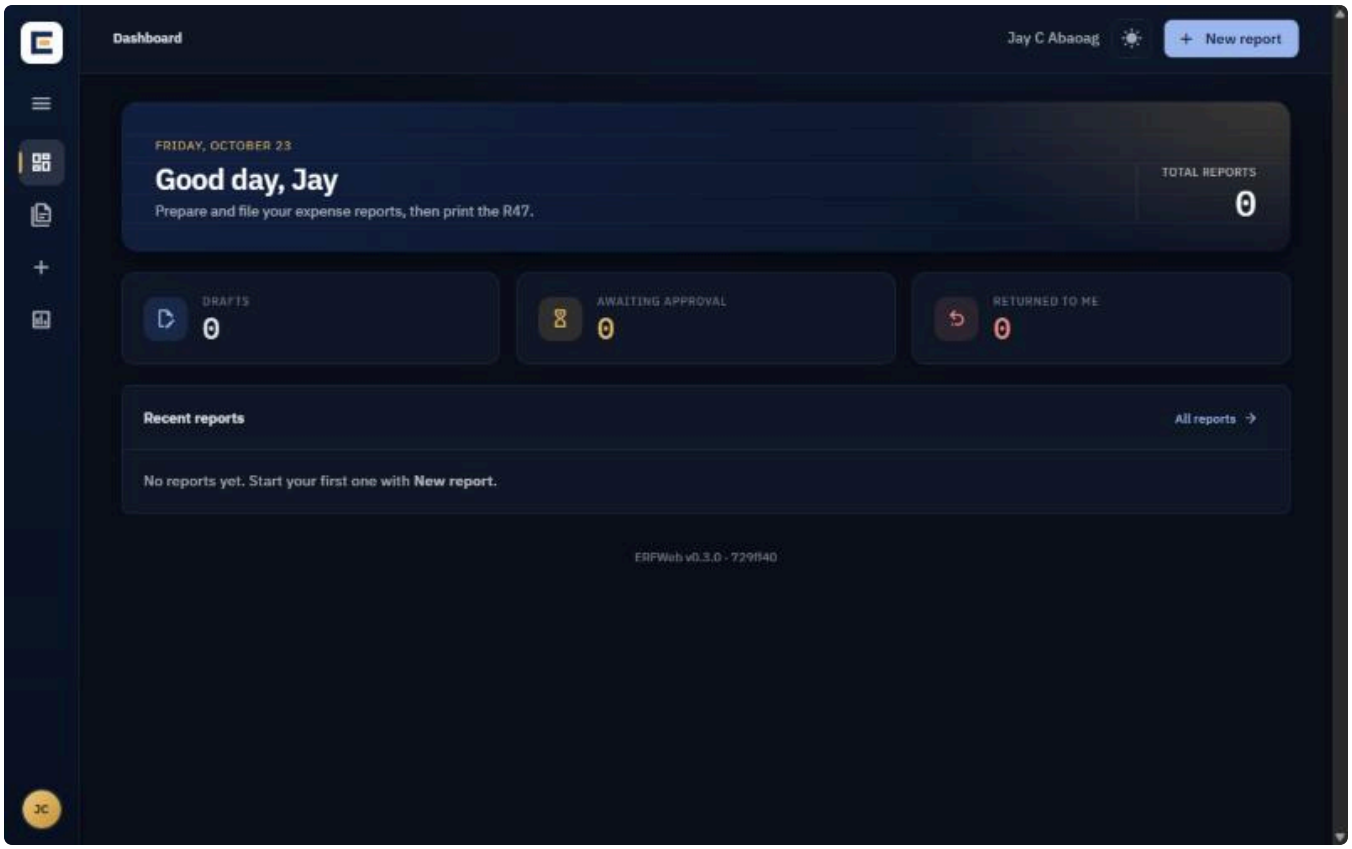

You need an ERFWeb account and Chrome or Edge; your administrator sets up everything else once.

1. Open ERFWeb and sign in with the username and temporary password you were given.
2. On your first sign-in ERFWeb opens **Change password**. Choose your own: at least 8 characters, different from your username and from the temporary one.
3. Ask your administrator to confirm these are set for you, or filing will be blocked:
   - your **signature** (printed on the R47),
   - your **approvers** (Level 1, and Level 2 if required),

- your **meal and allowance rates**,
- your **mobile number and email**, for notifications.

4. New accounts can file only after a **3-day waiting period** from registration. You can prepare drafts in the meantime.

Safari on iPhone, iPad and Mac cannot sign in yet.

Step 1: Create the report

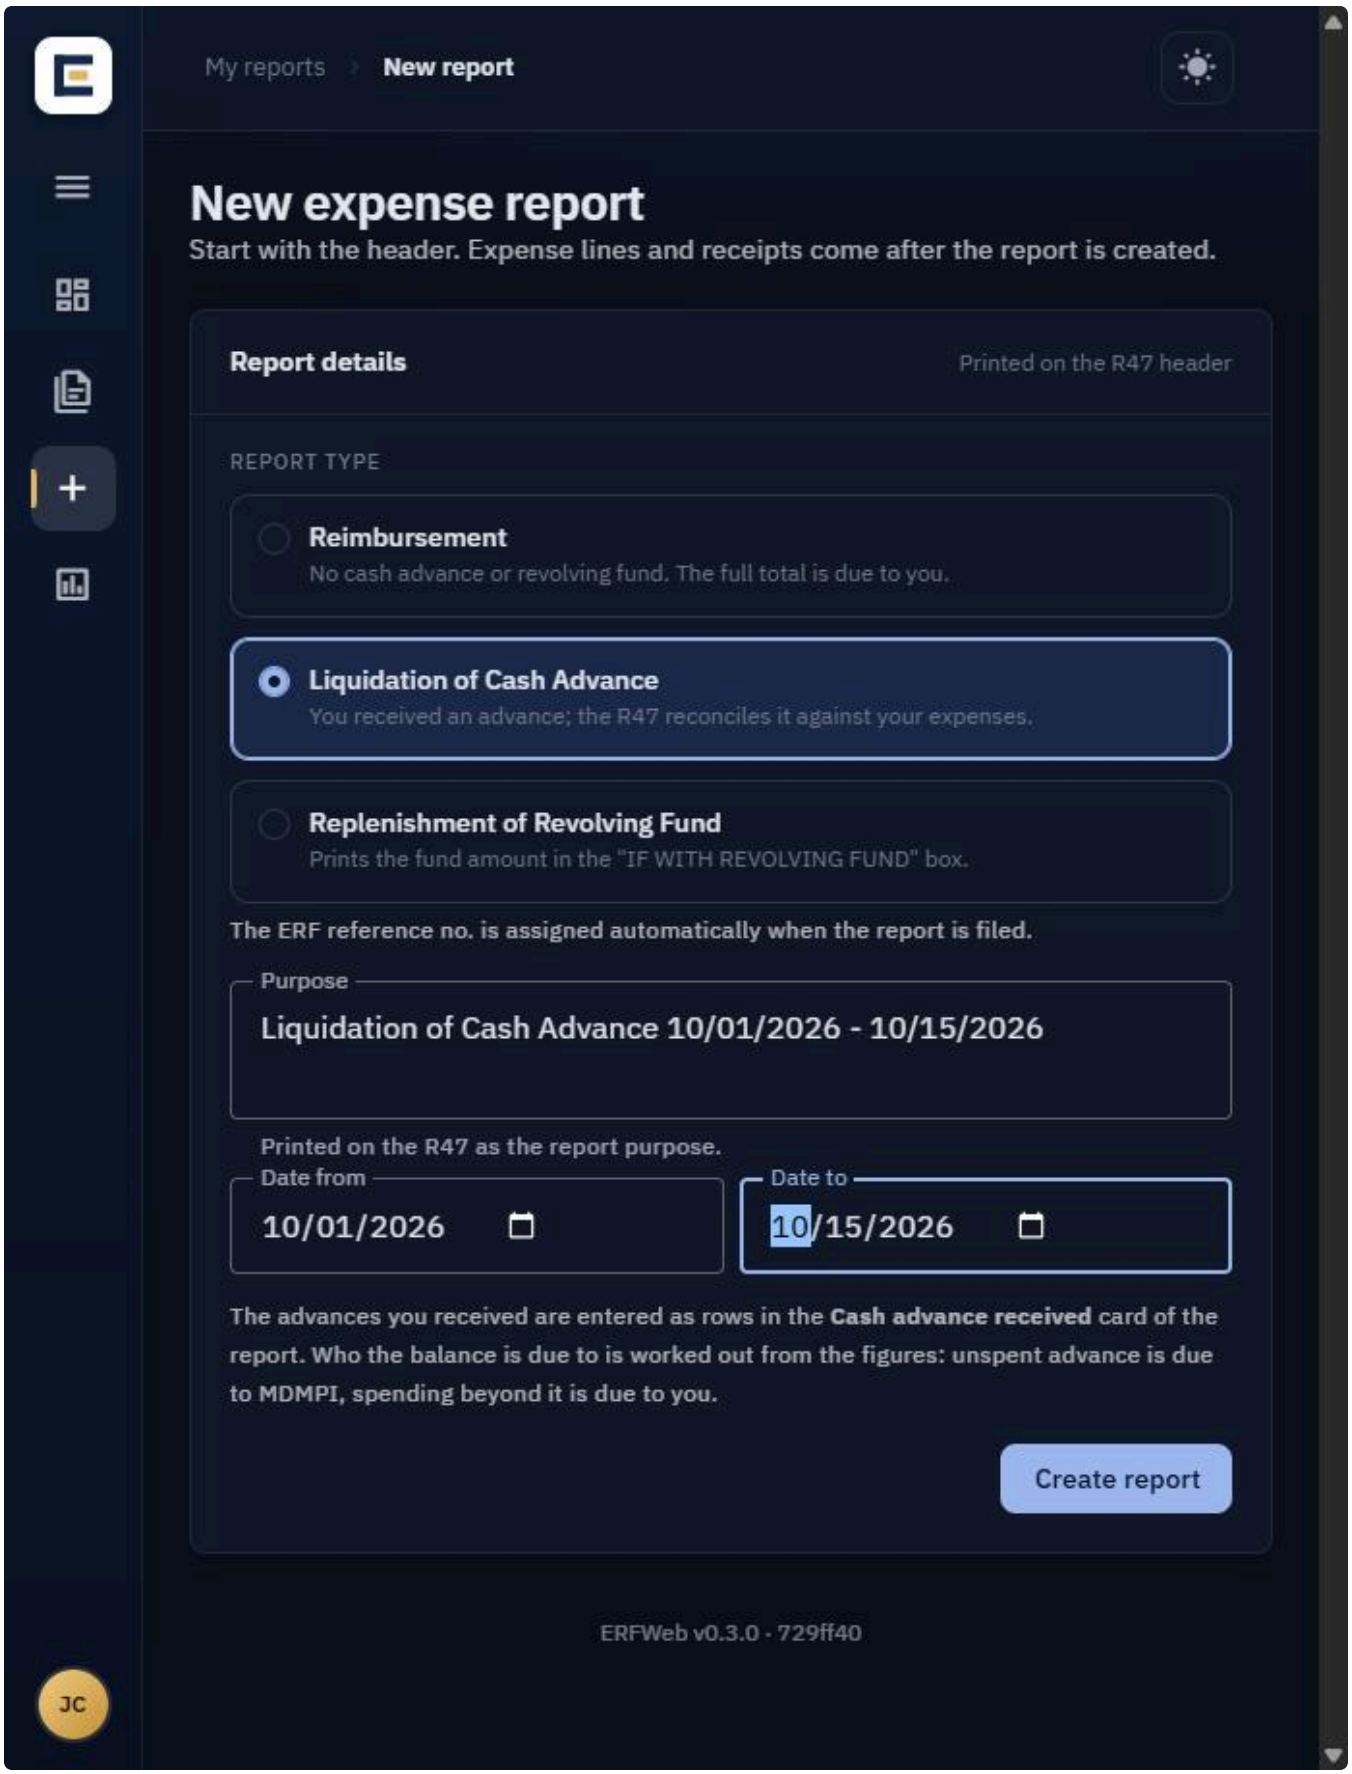

Start with the header; expense lines and receipts come after the report is created.

1. In the left menu, click **New report**.
2. Under **Report type**, pick one:

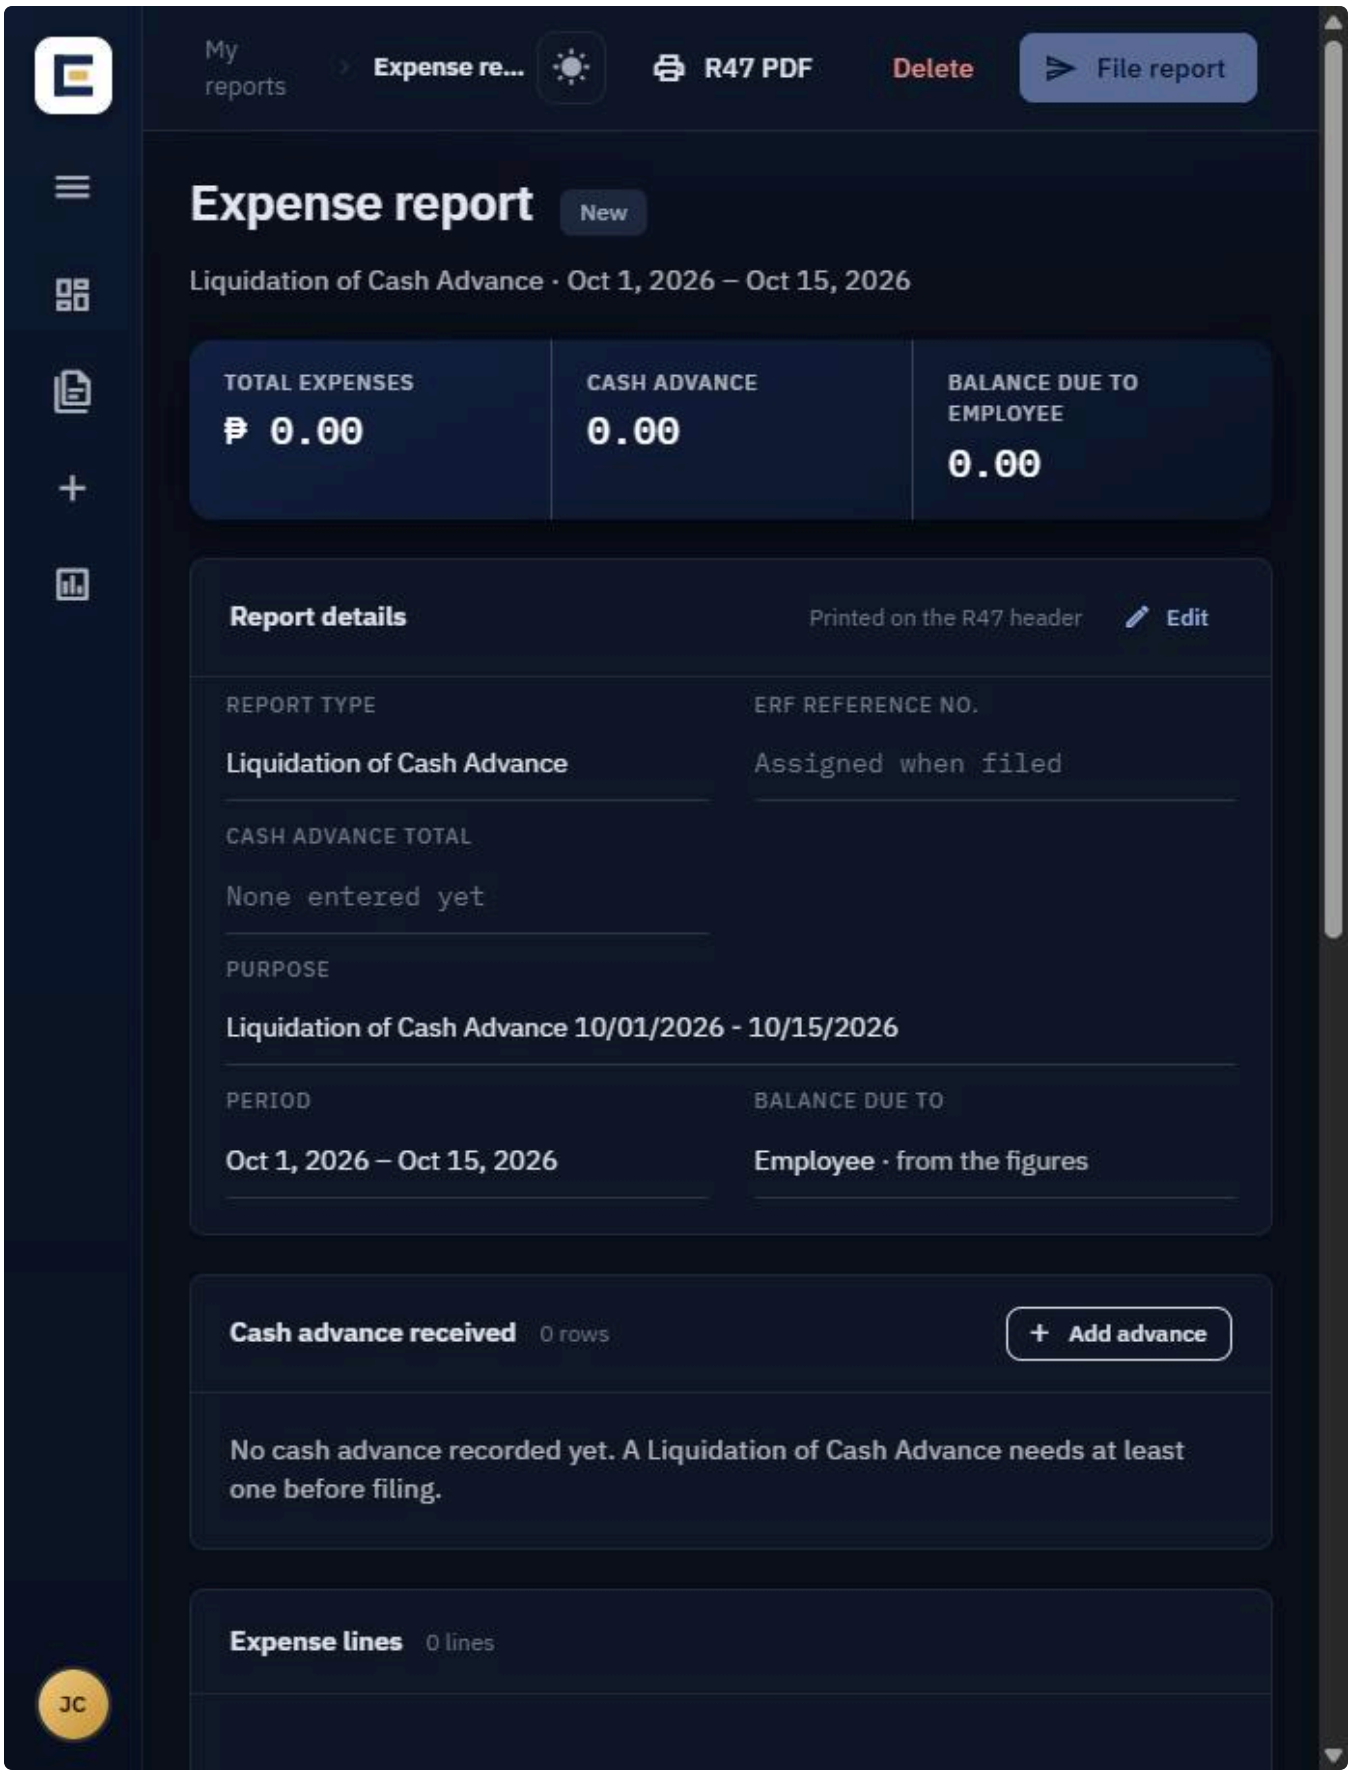

Report type	Use it when
Reimbursement	You paid out of pocket, with no cash advance; the full total is due to you
Liquidation of Cash Advance	You received a cash advance and are accounting for it

Report type	Use it when
Replenishment of Revolving Fund	You hold a revolving fund and are topping it up

3. Enter **Date from** and **Date to**, the period your expenses cover.
4. Check the **Purpose**. ERFWeb fills it in for you (for example *Reimbursement 10/01/2026 - 10/15/2026*); type over it if you want different wording. It prints on the R47.
5. For a Replenishment, enter the **Revolving fund amount**.
6. Click **Create report**. The report opens in the editor as a draft (status **New**).

My reports
New report
New expense report
Start with the header. Expense lines and receipts come after the report is created.
Report details
Printed on the R47 header
REPORT TYPE
Reimbursement
No cash advance or revolving fund. The full total is due to you.
Liquidation of Cash Advance
You received an advance; the R47 reconciles it against your expenses.
Replenishment of Revolving Fund
Prints the fund amount in the "IF WITH REVOLVING FUND" box.
The ERF reference no. is assigned automatically when the report is filed.
Purpose
Liquidation of Cash Advance 10/01/2026 - 10/15/2026
Printed on the R47 as the report purpose.
Date from
10/01/2026
Date to
10/15/2026
The advances you received are entered as rows in the Cash advance received card of the report. Who the balance is due to is worked out from the figures: unspent advance is due to MDMPI, spending beyond it is due to you.
Create report
ERFWeb v0.3.0 · 729ff40
JC

The ERF reference number (e.g. ERF-2026-000142) is assigned only when you file; drafts show "Assigned when filed".

Step 2: Add expense lines

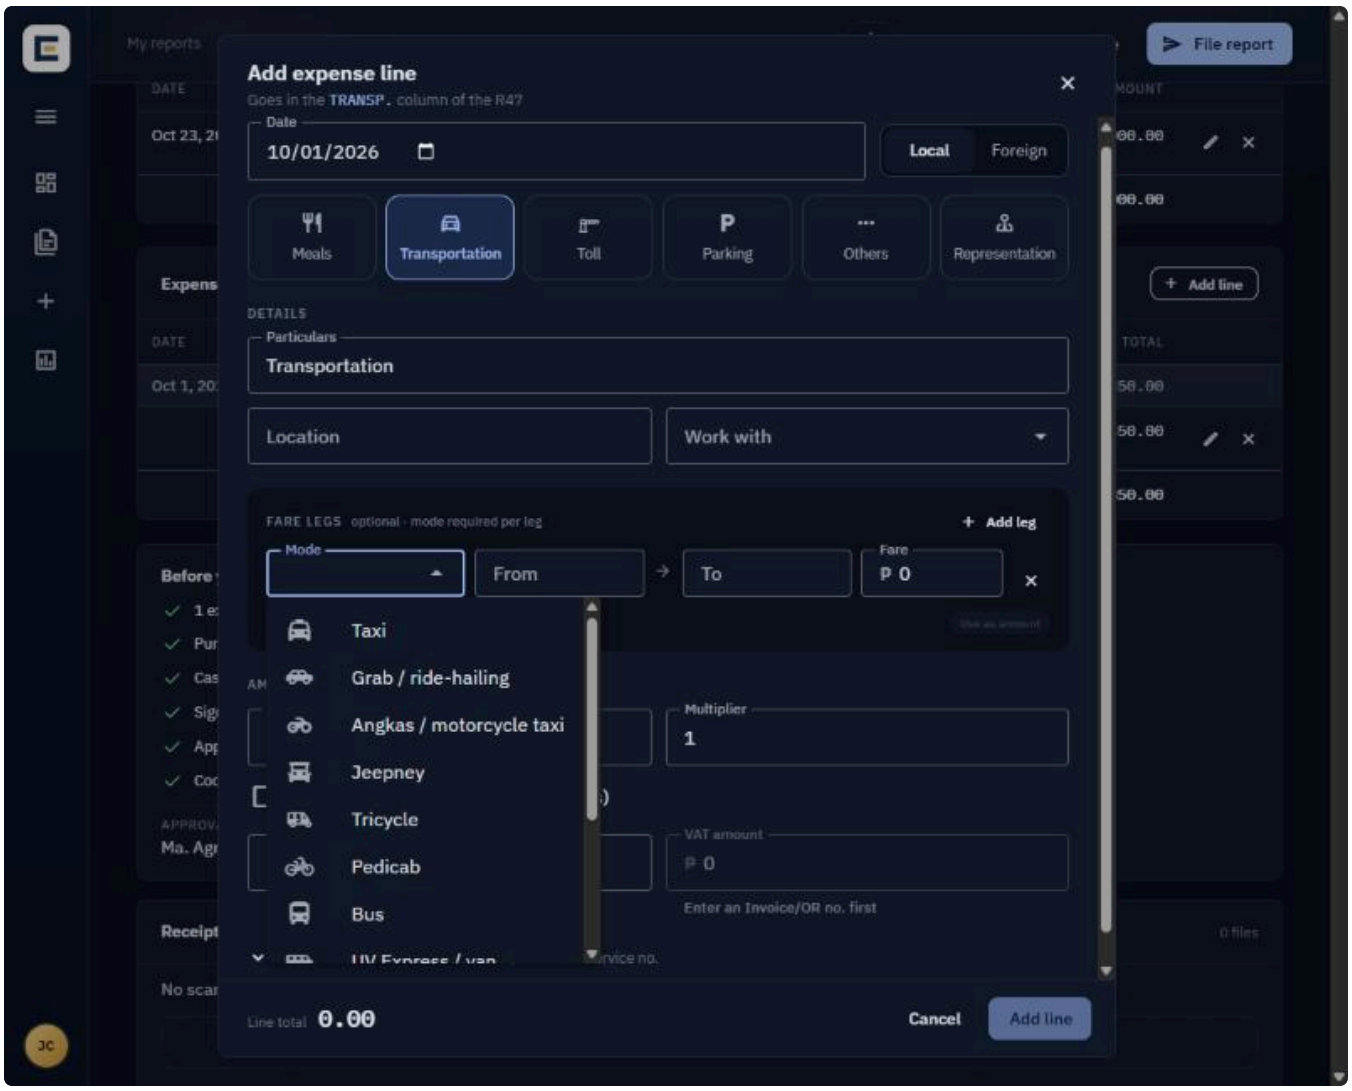

Add one line per expense; the **Add expense line** window shows the line total at the bottom as you type.

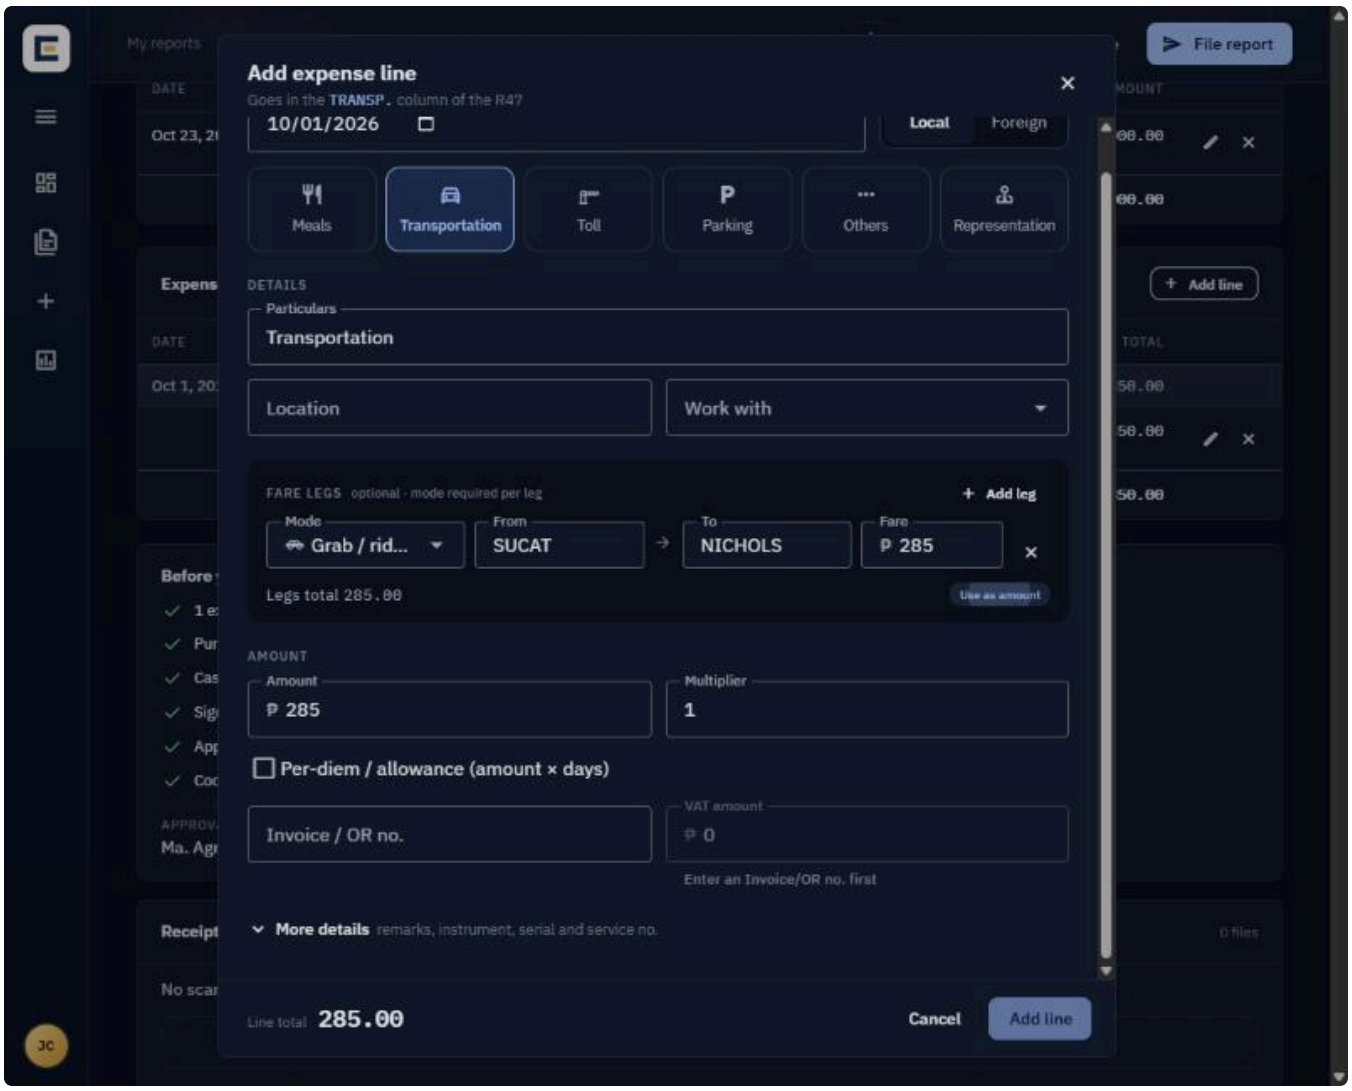

1. In the report editor, click **Add expense line** (on a report that already has lines, the button reads **Add line**). The **Add expense line** window opens.
2. Set the **Date** of the expense and choose **Local** or **Foreign**.
3. Click a category: **Meals**, **Transportation**, **Toll**, **Parking**, **Others** or **Representation**. The window shows which R47 column the line goes into.
4. Fill in **Particulars** (what it was, e.g. *SUCAT - NICHOLS*), **Location** (e.g. *MDMPI, CALMC*) and **Work with** (who you were with or the client; lines are grouped by it on the R47).
5. Complete the part for your category:
   - **Meals:** tick the meals (Breakfast, Lunch, Dinner, OT Meal). Your rate for that date shows on each, and their total is filled in as the amount. If no rate shows, type the amount yourself.
   - **Transportation:** click **Add leg** for each ride. Choose the **Mode** (Taxi, Grab, Angkas, Jeepney and so on), then **From**, **To** and **Fare**. A new leg starts where the last one ended. Click **Use as amount** to copy the legs total into the amount.
   - **Allowance by the day:** tick **Per-diem / allowance**, enter the daily amount, the **# of days** and any **− days** taken off.
6. Check the **Amount**. Use **Multiplier** for repeated identical expenses (e.g. 2 for two trips).
7. If you have an official receipt, enter the **Invoice / OR no.**; only then can you enter a **VAT amount**.
8. Optional: **More details** holds remarks, instrument, serial no. and service no.
9. Click **Add line**. The window clears for the next line; close it when you are done.

A Meals line with Breakfast and Lunch ticked:

A Transportation line: pick the mode for each leg first.

Add line

To change a line, open it from the expense lines table and click **Save line**. Lines with an OR number keep centavos; other lines round to whole pesos.

Step 3: Record cash advances (Liquidation only)

Only a Liquidation of Cash Advance needs this step; a Replenishment's fund amount was entered in Step 1, and a Reimbursement has neither.

1. In the **Cash advance received** card, click **Add advance**.
2. Enter the **Date** and **Amount** you received, the **Reference document** (e.g. Check Voucher, Petty Cash Voucher) and the **Ref. no.**
3. Click **Add advance**. Repeat for each advance, then click **Done**.

The R47 compares your advances with your expenses: unspent advance is due to MDMPI, spending beyond it is due to you.

Step 4: Attach receipts

Upload a scan or photo of every receipt in the **Receipts** card.

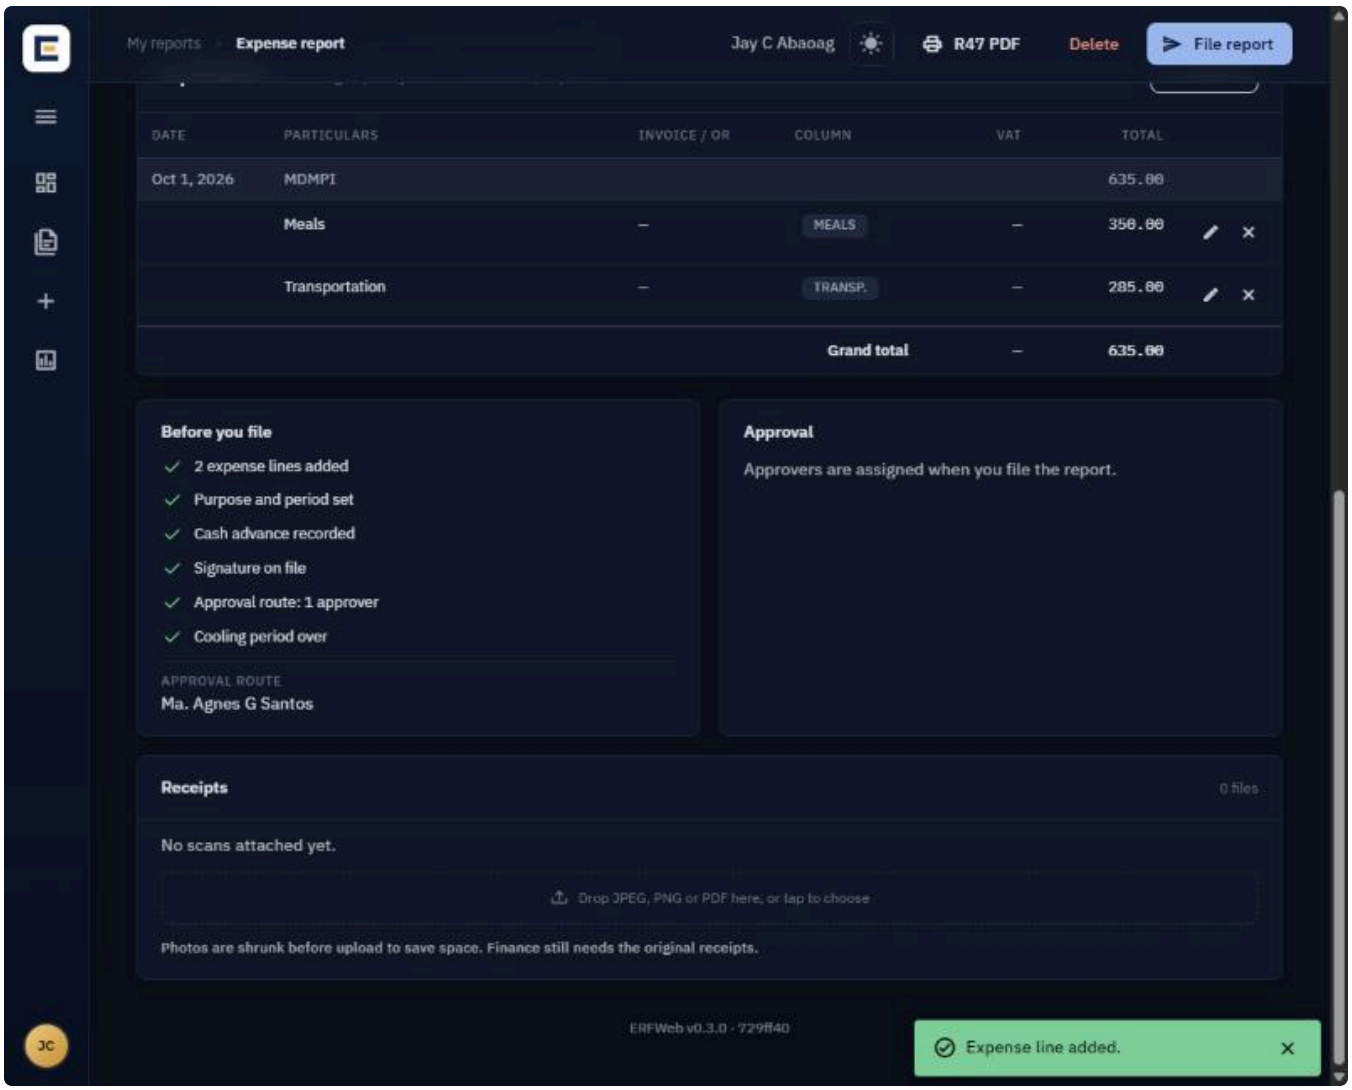

1. Drag JPEG, PNG or PDF files onto the box, or click it to choose files (on a phone, tap it to take or pick a photo).
2. Each file appears in the list; click its name to check it, or the **×** to delete it.

The Receipts card sits at the bottom of the report; it is shown in the Step 5 screenshot.

Uploads are a copy only: you must still give the **original receipts to Finance** after the report is approved.

Step 5: Check the list and file

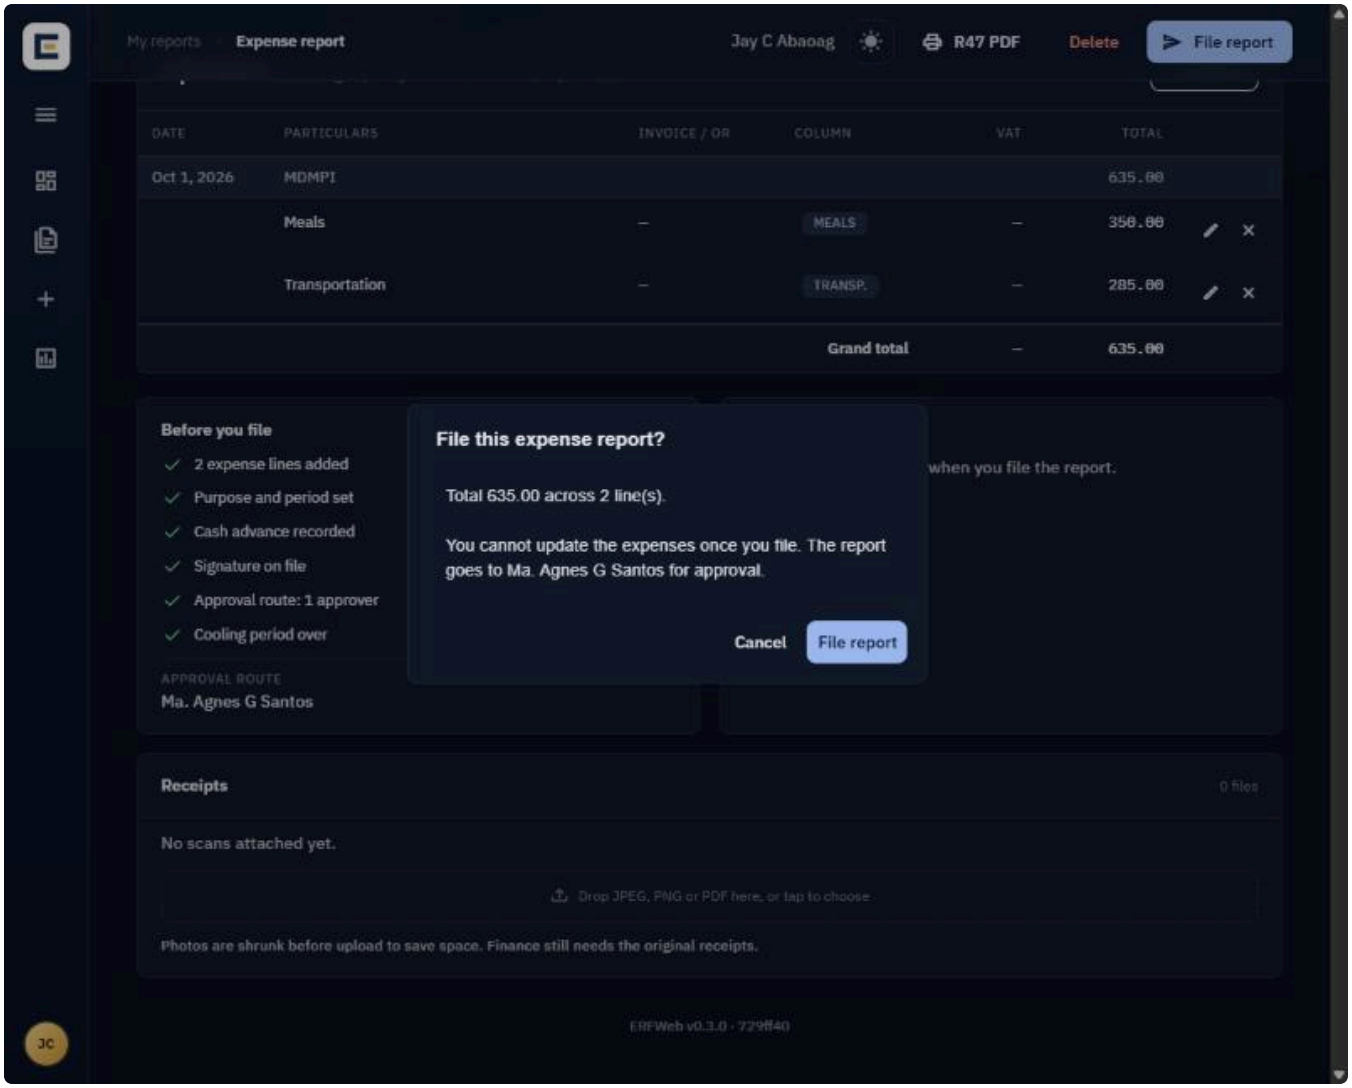

The **Before you file** card shows every requirement: green ticks are done, amber circles still need attention. **File report** stays disabled until all are green.

Checklist item	If it is amber
Expense lines added	Add at least one line (Step 2)
Purpose and period set	Fill in Purpose, Date from and Date to (Step 1)
Cash advance recorded *(Liquidation)*	Add at least one advance (Step 3)
Revolving fund amount recorded *(Replenishment)*	Enter it in the report details (Step 1)
Signature on file	Ask your administrator to upload your signature
Approval route	Ask your administrator to set your approvers

Checklist item	If it is amber
Cooling period over	Wait until the date shown

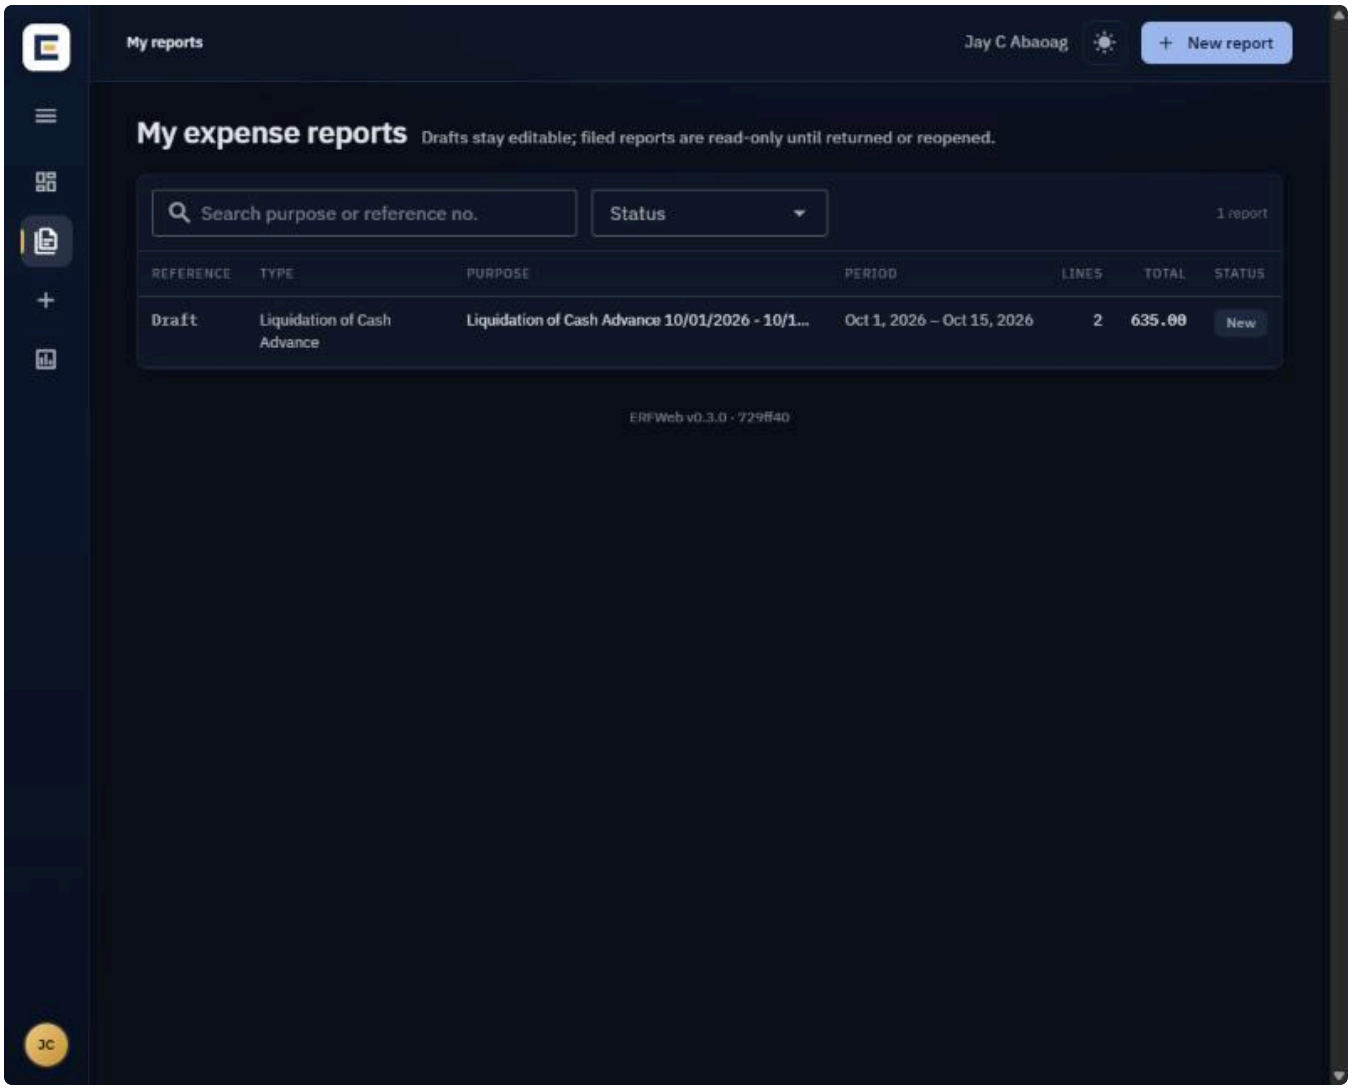

1. Check the **Approval route** line at the bottom of the card; it names who will approve, in order.
2. Open **R47 PDF** if you want to see the printed form first.
3. Click **File report**, read the total in the confirmation, then click **File report** again.

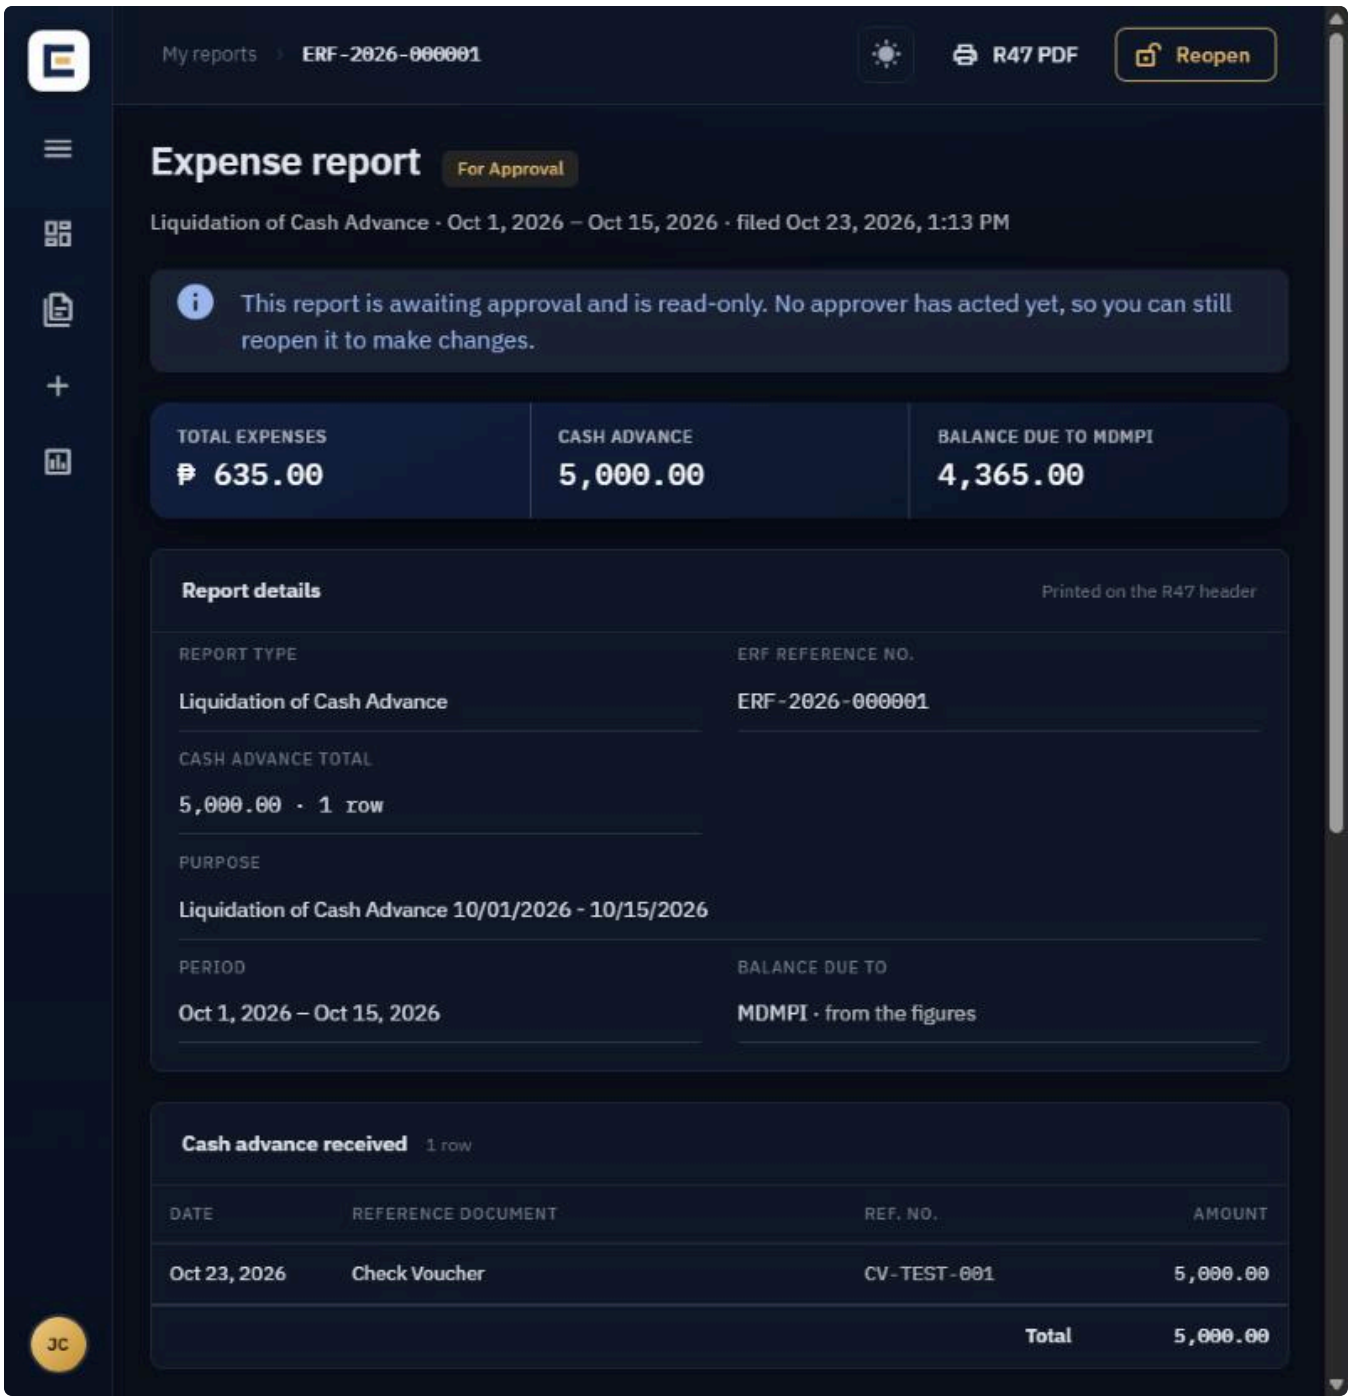

You cannot change expenses once you file. ERFWeb assigns the ERF reference number, shows *Filed. Awaiting approval by …*, and texts and emails you and your approvers.

After filing

Follow your report under **My reports**; open it to see the approval timeline. You get an SMS and an email at each approval, return or rejection.

Once filed, the report shows its ERF reference number and **For Approval**, and can still be reopened until the first approver acts:

Status	What it means	What you do
For approval	Waiting for your approvers	Wait; you may **Reopen** it only until the first approver acts
Returned	An approver sent it back with a note	Read the note, fix the report, click **Re-file report**
Approved	All approvers signed	Hand the original receipts to Finance

Status	What it means	What you do
Rejected	Final decision	Nothing; it cannot be re-filed

- **Reopen:** puts a filed report back to draft so you can change it; approval starts again from the first approver.
- **R47 PDF:** view, print or download the form, or **Email** it to yourself and your approvers.
- **Delete:** only drafts that were never filed can be deleted.

Common problems

What you see	What to do
File report is greyed out	Look for amber items in **Before you file** (Step 5)
"Signature not on file" or "No approval route is configured for you"	Ask your administrator to set it up
Meal rates show nothing or zero	Your rates are not set for that date; ask your administrator
"Choose a mode" on a fare leg	Pick the Mode for every leg you filled in
VAT amount is greyed out	Enter the Invoice / OR no. first
The page reloads after you save	Someone changed the report at the same time; redo your last change
Cannot edit a filed report	Reopen it (before an approver acts) or ask your approver to return it
"Too many failed sign-in attempts"	Wait 15 minutes, or ask the administrator to reset your password

Still stuck? Send the ERFWeb administrator the time, your report's reference number and any error shown on screen.
